

"Your training will be the experience of the child's. You'll understand the magic of Montessori learning because you'll live it."

OUR MISSION

Transform How Montessori Teachers Learn

SBM Educators teaches adults the way Dr. Montessori set out to teach children — respecting autonomy, treating learning as purposeful, and igniting transformation in yourself first. We prepare guides who are active, intentional, and ready to create spaces where children become agents of change.

WHAT YOU WILL LEARN

- **Child Development & Materials** — Theory grounded in who the Elementary child is, with spiraled curriculum mastery
- **Literacy & Language Focus** — The backbone of the child's access to the rich cosmic curriculum
- **Classroom Orchestration** — Community Meetings, Project Work, Going-Out, Student Agendas & Check-Ins
- **Practical Readiness** — Parent communication, classroom management, co-guide collaboration & planning with intention
- **The Great Lessons & Storytelling** — Develop your voice as an educator and master the art of narrative teaching

"Follow the child's potential. We know what they are capable of — our work is to unblock the path so they can exercise their sacred potential to learn, contribute, and evolve."

— Tess, Founder · SBM Educators

EDUCATORS

WHAT SETS US APART

Experiential, Collective, & Practical

This two year hybrid program, is taught by a collective of teacher educators — not a single voice. You'll receive mentorship throughout your observation and practicum, including an on-site visit where a teacher educator observes you in your classroom. You'll graduate with a practical portfolio of tools you can implement immediately — not just theory wondering where to start.

PROGRAM TIMELINE

NOW ACCEPTING APPLICATIONS — 2026

Rolling review, open through July 2026

SEPTEMBER 2026

Cohort No.1 begins - hybrid online coursework, observation hours & mentorship

JULY 2027
